Thank you for purchasing one of our Golden Retrievers. We strive to breed and raise quality puppies and dogs. We fell in love with this breed 27 years ago and long to be a part of producing not only quality but healthy and sound puppies. Lets face it "life is better with a Golden".

1. Puppy must be seen by a vet within 72 hrs of leaving the breeder's home. In the event the buyer's Veterinarian finds and provides a document stating said puppy has an existing health problem at the time of pick up, a full refund or reimbursement for reasonable veterinary fees, provide reimbursement do not exceed the original purchase price of the puppy. (excluding worms, giardia, coccidia and fleas as these are common and can be picked up anywhere.) We do not cover bladder infections as they are common in small puppies when adjusting to new surroundings..In the event that 1 testicle does not descend, it is the buyer's responsibility to have corrected at time of fixing male not breeders, as breeders can not see the future. Some males do not drop testicles until past the age of leaving the breeder. If you choose to have a full refund, the puppy will be returned to the breeder, at the owner's expense, no later than 5 days after purchase. The Veterinarian Fees that are incurred prior to return of the puppy will be the responsibility of the buyer. If one of the previously listed disorders are discovered within the allotted time frame, the buyer may return the puppy to the breeder for a full refund of the full purchase price once the funds become available. This is contingent upon the sale of the said puppy or sell of another litter. The buyer "owner" may decide to keep the puppy and void a complete refund and health guarantee.
